| <b>Adjustment date</b> | <b>31/07/2026</b> (effective date — covers all July receipts)                                                                                                                              | <b>Adjustment type</b> | Upward stock adjustment                                                                             |
| <b>Reason</b>          | Quantities on the signed delivery notes exceed the quantities captured in the earlier Cin7 adjustments (“PO 491 (Not On Cin7)” and DN I349198). This adjustment catches up the difference. | <b>Verify first</b>    | Confirm each SKU against Shopify on-hand before posting; remove any line where Cin7 already agrees. |

**Queen detail:** DNs delivered 70 (10 on I348706 + 60 on I349504); the “PO 491 (Not On Cin7)” adjustment captured +57 (3 → 60) in Cape Town Warehouse. Confirm both the 13-unit gap and whether the queens belong in JHB or CPT.

Unit costs are ex-VAT supplier costs per Shopify PO491. Signed delivery note copies are attached to the individual DN adjustments and on the PO491 Shopify timeline.
